I am a Wellness Physician who chose chiropractic care as the main focus of my work. I believe it is important to discover and work with any underlying problem rather than to simply eliminate pain and symptoms. Based on the Nervous System, this healing art connects the mind and body on a very tangible plane, reducing the static of nerve interference in your body. By turning on the power of your innate wisdom, healing and strengthening can begin. My specialty within this field is corrective care for long lasting results and improved vitality. X-rays are done on sight and patients receive a thorough neurological, orthopedic and chiropractic evaluation. Consultations are free. Why not come in and see how we can work together to improve the quality of your life? CDL Health cards are also available.
